

Job Description – Air Conditioning & Refrigeration (ACR) Apprentice

An exciting opportunity to join our fast-growing business, with excellent prospects for advancement as we continually strengthen our position in the South East.

We are seeking an individual who would like to train to become a fully qualified Air conditioning & refrigeration engineer (ACR). The apprenticeship will be fully funded and will work towards an NVQ level III qualification.

Our current apprentice has just been entered into the WorldSkills UK competition which is testament to our in-house training and his hard work.

The applicant must be willing to work as a team member and later, as an individual as your skills and knowledge in this industry improve.

The work is varied and rewarding and includes split AC, VRV and commercial refrigeration. The ideal applicant will be able to display good self-management and interpersonal skills.

You will be learning through work, carrying out specific duties which will include:

- Carrying out routine planned maintenance tasks
- Diagnosing breakdown faults
- Carrying out repair work
- Completing daily paperwork
- Working to company procedures
- Dealing with emergencies and unplanned breakdowns - inclusion in out of hours on call rota (year 2>)
- Maintaining customer relationships
- Assisting with small installations

In addition, ideally you will have the following:

- Maths – C > / English C >
- Full Clean Driving License & Own transport
- Great work ethic & good time management

Benefits:

- Fantastic working environment
- Become a fully qualified ACR engineer
- Smart Phone, Uniform
- Company Pension
